

YOUTH DEVELOPMENT

COMMUNITY OF PRACTICE JUNE WORKSHOP SCHEDULE

ABOUT THE COMMUNITY OF PRACTICE

Our Youth Development Community of Practice (CoP) offers professional learning opportunities for youth development practitioners serving young people in Montgomery County. The CoP brings to the County's youth development practitioners a coordinated system of on-going training with experienced and knowledgeable facilitators, expert-led symposia, on-line courses, and access to e-learning resources, such as a library and recorded webinars.

At the core of the CoP is peer networking to share best practices and innovative program strategies that promote positive youth outcomes in the County's young people. For information about our upcoming trainings please visit our website at:
